cement brick making machine

1. Brief introduction of bricks manufacturing machine

This Machine is manufactured on the base of technical modifications to the original block shaping machines, that is, changing the former one-time-vibration into twice-vibrations of moulding core, So, the [cement brick making machine](#) density becomes higher, shaping speed quicker and block strength more even, This model of machine can be suitable to the customers who have any kinds of existing cement working sites, And the consumption pallets can be reduced.
